CRM RELEASE

23 September 2026 – VERSION 2.55.0

Sales and Lettings

Improved User List Sorting

It is now possible to sort columns on the User list, making it easier to find and organise users alphabetically.

Accurate Filtered Exports

Exports now reflect the filters applied to property, applicant and other list views, ensuring downloaded data matches the results you'd selected to view within CRM.

Reliable Key Activity Logging

You can now add calls and journal entries from the Keys Due Back activity list category.

Tapi integration

We have launched our integration with Tapi, if you would like more information please visit the [Tapi integration page](#) or contact the account management team.

Askpilot integration

Our integration with Askpilot is now available, if you would like more information please visit the [Askpilot integration page](#) or contact the account management team.

Sales

Consistent Calendar Text Formatting

We have resolved an issue with how text was sometimes displaying in the calendar, ensuring a consistent experience across all calendar views.

Lettings

Prebooked Tenant Filtering

The PB Tenants dashboard button now consistently applies the prebooked filter, making it easier to access the correct tenant list without unintentionally clearing your existing filter.

Consistent Contractor Expense Defaults

Expenses created through Property Management now inherit the contractor's default transaction sub-type, ensuring they're correctly populated in Jobs Outstanding.

Easier Expense Invoice Descriptions

The description field on expense invoices can now expand to accommodate longer text, making it easier to view and enter detailed descriptions.

Applicant Contact Lists

Applicants are now removed from the Applicants Not Contacted activity list after an email is sent, keeping the list up to date.

Changes To Renters Rights

With the recent changes to Renters Rights, we've created a helpful article which details more about what this means to you, and how you can use iamproperty CRM to help navigate these changes. All of the information can be found [here](#).

Book a CRM Health Check

Did you know you can book a free CRM review with our team? We'll walk through how you are currently using the system and share practical tips, guidance and best practice to get the most from your CRM.

Book your health check today and make sure you are fully prepared to support your clients. Email us at crm.accountmanagement@iamproperty.com
