CRM RELEASE

18 November 2026 - VERSION 2.59.0

Sales and Lettings

Clearer Property Audit

Updated the property audit to display user-friendly values rather than database values, making it easier to understand what has changed.

Booking Calendar Viewings

We have added protection around sending viewing confirmations from the calendar to prevent incorrect details being included.

Sales

Updates to matching

We have resolved an issue with property type in matching not always returning as many matches as expected.

Lettings

Smoother Compliance Date Management

Deleting a compliance date now keeps you on the Compliance tab so you can pick up where you left off.

Accurate Email Subject Details

Resolved an issue where email subject lines weren't populating the property address correctly.

Changes To Renters Rights

With the recent changes to Renters Rights, we've created a helpful article which details more about what this means to you, and how you can use iamproperty CRM to help navigate these changes. All of the information can be found here.

Book a CRM Health Check

Did you know you can book a free CRM review with our team? We'll walk through how you are currently using the system and share practical tips, guidance and best practice to get the most from your CRM.

Book your health check today and make sure you are fully prepared to support your clients. Email us at crm.accountmanagement@iamproperty.com
